

THE CODEPENDENT/NARCISSIST TRAP: THE HUMAN MAGNET SYNDROME PART 2 DAY 1

Professional Training Open to the General Public

This training is based on Ross Rosenberg's latest book, *The Human Magnet Syndrome: The Codependent Narcissist Trap*, which is a complete rewrite of its predecessor. Ross's first book was based on a training that was given in 30 States/70 cities. *Ironically, this time around, his book spawned the training!*

A six-hour training/seminar, geared for BOTH professionals and the general public. CEU's are available for LCSW, LCPC, Psychologists, and Addiction Counselors. It will be located at the Skokie DoubleTree by Hilton Hotel Chicago - North Shore Conference Center on Wednesday, February 7, 2018.

SEMINAR DESCRIPTION

Since the dawn of civilization, men and women have been magnetically and irresistibly drawn together, not so much by what they see, feel and think, but more by invisible, unconscious romantic forces. This seductive, alluring and seemingly impossible to avoid *love force* is the *Human Magnet Syndrome*. It bonds oppositely-matched partners in a breakup resistant rollercoaster-like relationship. Magnetic-like attraction, or "chemistry," brings codependents and narcissists together in an enchanting fantasy that can never be sustained. Given time, a codependent's *soul mate* dreams will predictably melt away leaving them with the cellmate reality.

This seminar not only explains why codependents habitually fall prey to harmful and manipulative narcissists, but why they predictably sabotage their dreams for freedom, happiness and self-love. Rosenberg's pioneering work on relationships, codependency and narcissism is a necessary road map for receiving healthy love—both from others and ourselves.

SEMINAR DESCRIPTION

The Codependency Cure™ is the much-anticipated follow-up to Ross Rosenberg's Human Magnet Syndrome work (book and seminar), which has been given across the USA and twice in Europe. While Rosenberg's best-selling first book, *The Human Magnet Syndrome*, explained why codependents repeatedly and reflexively fall in love with people who hurt them, this seminar takes the next step of redefining the problem and offering an actual long term solution. Expect original content in the form of persuasive and intuitively accessible psychological theories, explanations, and counseling techniques.

In this seminar, the problem once called "codependency" is re-defined and re-conceptualized into a trauma, core shame, pathological loneliness, and addiction disorder. Rosenberg addresses the stigma and subsequent shame behind a "codependency" diagnosis in addition to the existing limitations of the current approach to solving the problem. He explains his trademarked replacement term for "codependency," "Self-Love Deficit Disorder (SLDD)" as well as "Self-Love Recovery" as being the "cure."

These new terminologies, theories, and explanations, with their treatment program have been embraced by a global audience, as evidenced by his 7.3 million YouTube video views, 65,000 subscribers, and the ever-increasing, high demand for his written material. Focusing on why Self-Love Deficit Disorder is the superior diagnostic term, Rosenberg describes in detail its five core components: trauma, shame, loneliness, addiction, and SLDD behavior.

The seminar promises to be an engaging, entertaining, and informative experience. Participants will undergo a cascade of "aha moments" which will ultimately result in a solid understanding of the SLDD "problem," its origins, and a logical and intuitive treatment solution for it. Not only will the "Codependency Cure" offer a way out of a lifetime burden of having SLDD, but it also provides the seminar participant viewer an opportunity, perhaps for the first time in her life, to have hope and a plan to attain the long-elusive experience of total self-love.
